FOR IMMEDIATE RELEASE

# TK Lighting Launches in Canada: European Design, Locally Stocked in Mississauga

*Polish lighting manufacturer enters the Canadian market through its exclusive North American distributor, LumoCrafts*

**MISSISSAUGA, ON — November 24, 2026 —** TK Lighting, a European manufacturer of decorative lighting from Poland, is now available in Canada. Through its exclusive North American distributor, LumoCrafts, the brand's collections are stocked locally in Mississauga and ship to showrooms, designers and projects across Canada in one to two business days.

TK Lighting's collections blend Scandinavian, minimalist and mid-century modern design with materials such as glass, solid wood, natural linen and metal. The range includes pendants, chandeliers, wall sconces, ceiling fixtures, and floor and table lamps. Fixtures sold in Canada are UL/cUL certified for North America, and all products ship in FSC-certified packaging.

"Designers and showrooms here love the European look, but long lead times often get in the way," said Serg Hryb, founder of LumoCrafts. "By keeping TK Lighting in stock in Mississauga, we can offer European design with the speed of a local supplier."

TK Lighting is already carried by select showrooms in the Greater Toronto Area, and the team recently met with lighting agencies and specifiers at Canada Light Expo 2026.

For retail consumers, collections are accessible directly through LumoCrafts and partner Casa Di Luce.

Comprehensive trade solutions, including dedicated wholesale pricing, volume ordering, and custom specifier support are available for showrooms, retailers, interior designers, and commercial specifiers via TK Lighting Canada. International catalog access is available at tk-lighting.com.

Showrooms and retailers can order with no minimum, with products stocked locally in Mississauga for fast fulfillment across Canada.

## About TK Lighting

TK Lighting is a Polish manufacturer of decorative lighting, designing and producing pendants, chandeliers, sconces and lamps for residential and hospitality interiors. Its collections combine European craftsmanship with modern, timeless design.

## About LumoCrafts

LumoCrafts is the exclusive North American importer and distributor of TK Lighting. Based in Mississauga, Ontario, it serves consumers and trade customers, including showrooms, retailers, designers and project teams, through its online store and distribution network. With locally stocked inventory, LumoCrafts provides fast delivery across Canada.
