Zaneen's bollard collection features a diverse range of lighting solutions tailored to suit a variety of exterior applications and design styles. Enhancing safety and visual appeal, these bollards are ideal for various settings including hospitality, corporate, public, and residential. From sleek, minimalist designs to bold, architectural columns of light, this collection delivers on both function and aesthetics.

Mini Bollards

Mini Bollards

Our selection of mini bollard fixtures is designed to deliver a big impact in a compact form. Each fixture offers unique design elements and benefits, seamlessly blending into the environment during the day thanks to their smaller size, while providing the full functionality of a standard bollard at night. Mini bollards are especially effective for path guidance, wayfinding, and decorative lighting, adding a subtle touch of ambiance to any outdoor space.

BLEND

Sculptural body that doubles as an art piece, seamlessly merging into the natural environment when unlit.

Single Directional

Multi Directional

LITTLE ROK

Inspired by the classic lighthouse design, offering the option of unidirectional and omnidirectional light output.

2 openings

MENHIR

Compact cylindrical mini bollard that delivers soft, controlled light with a clean, modern presence.

MINI ONE

Compact, geometric design with the option for one, two or four window configurations to suit project needs.

MOON

Compact bollard with a moon-like circular glow. Features hidden hardware, integrated power, and durable weatherproof finish.

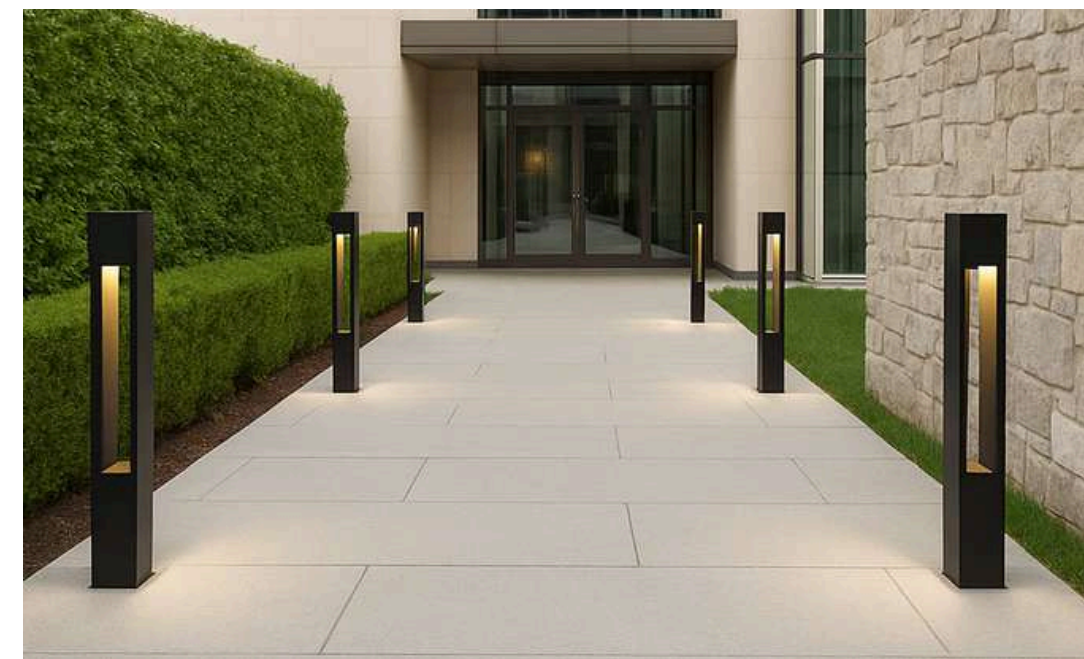

TUBE

Compact and efficient bollard with clean cylindrical design and multi-layer protective coating for lasting durability.

Bollards

Bollards

This selection of bollards offers exceptional flexibility in design, functionality, and application. Whether you're seeking a sleek, minimalist profile or an eye-catching column, this range of exterior lighting solutions can meet a wide variety of design visions and project requirements.

BLEND

A sleek, minimalist bollard that delivers soft, glare-free light while blending harmoniously into outdoor spaces.

FONT

Timeless bollard design that blends seamlessly into surroundings. Font offers a range of light distribution options including a street beam, and diffused dispersion.

FRISBEE

Disc-shaped bollard with an underside diffuser designed to maximize light output.

MENHIR

A modern cylindrical bollard made of corrosion-resistant aluminum with IP65 and IK08 protection. Bold and sculptural, Menhir defines outdoor paths with a strong presence and powerful illumination.

MINI ONE

Mini One features a geometric design that blends elegance with outstanding versatility. Available with one, two, or four windows, it adapts seamlessly to a variety of lighting needs. The bollard version is ideal for enhancing pedestrian pathways with both style and functionality.

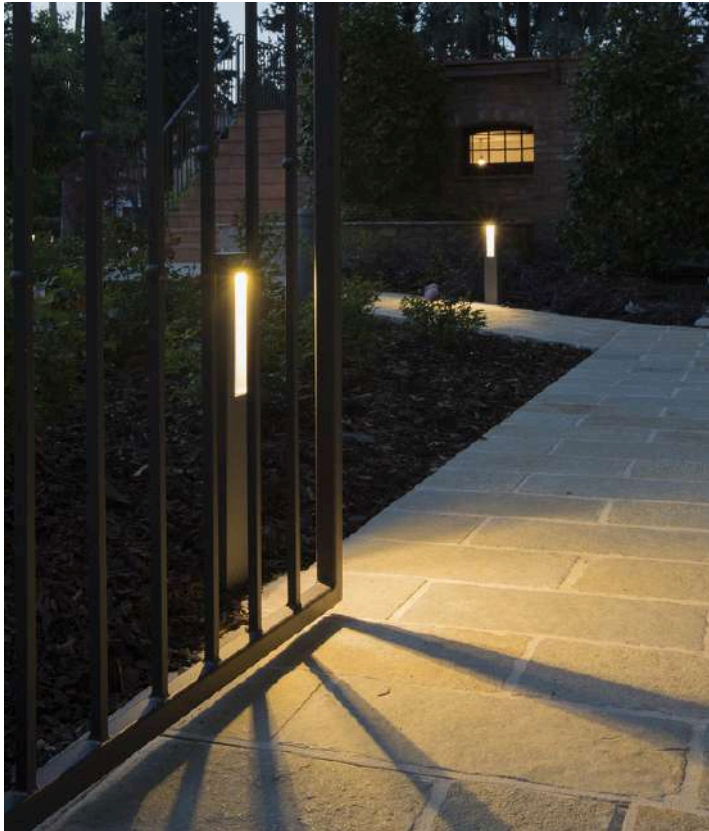

MOON

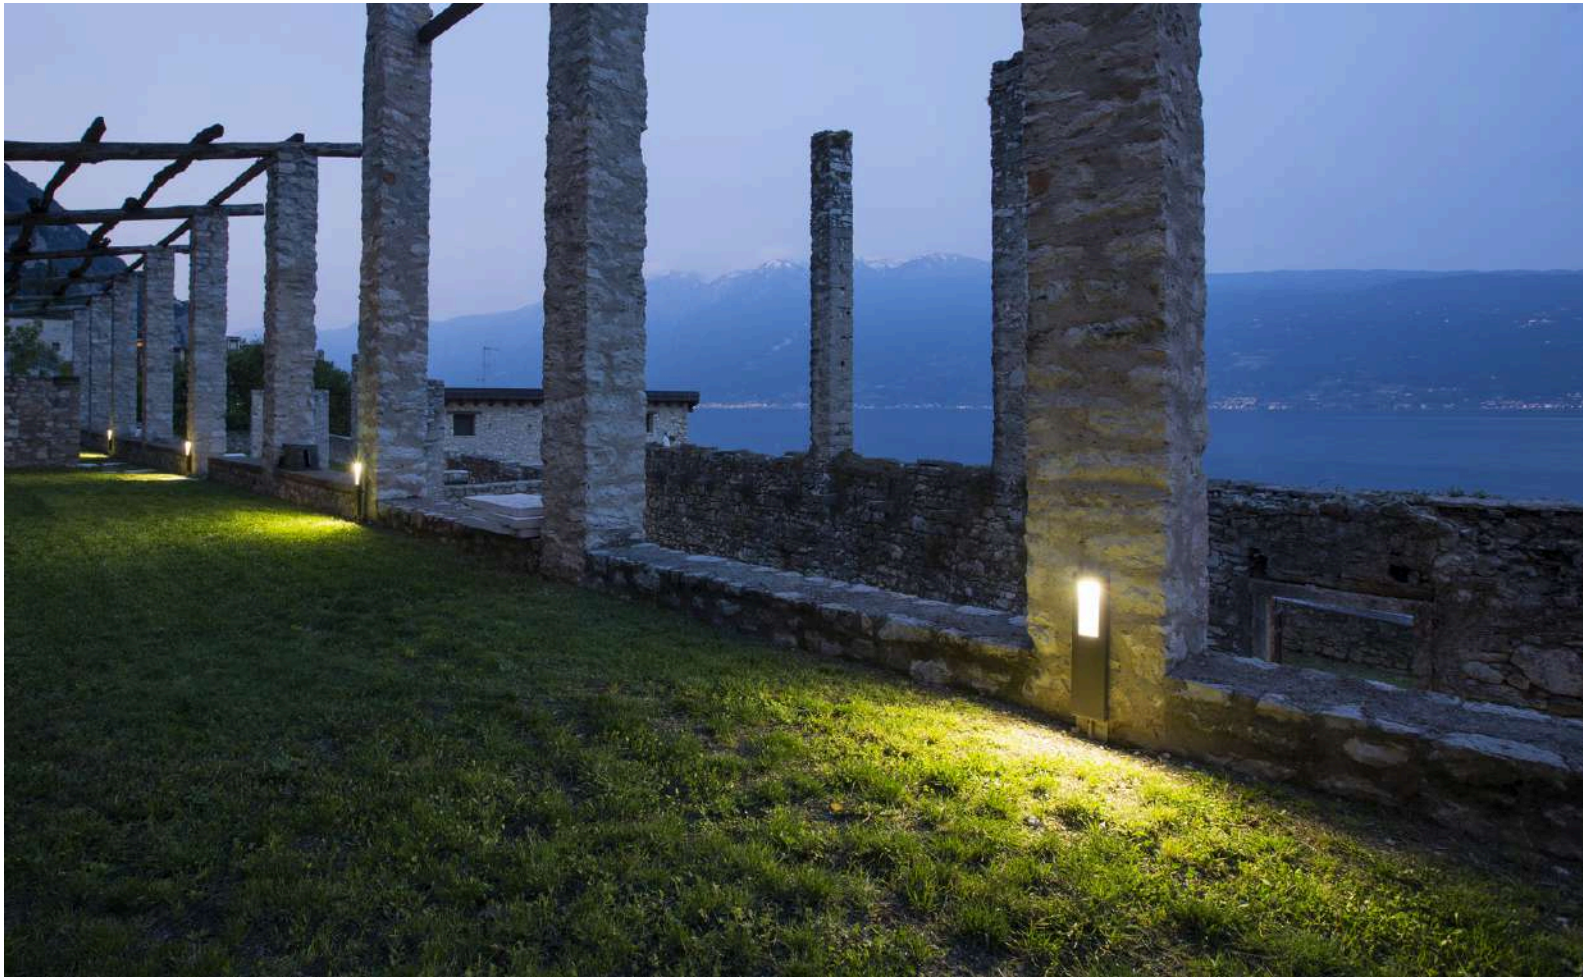

Sleek design with a halo diffuser that creates a vivid glow, perfect for outdoor lighting.

SLIM

Minimalistic design with a slim profile of just 36mm (1.4 inches), featuring a discrete diffuser. Available in two heights and with single or double emissions, it is suitable for modern outdoor pathways, parks and gardens.

T4

High-output performance ensuring efficient path illumination, while the aluminum body offers durability in all weather conditions.

TEAM

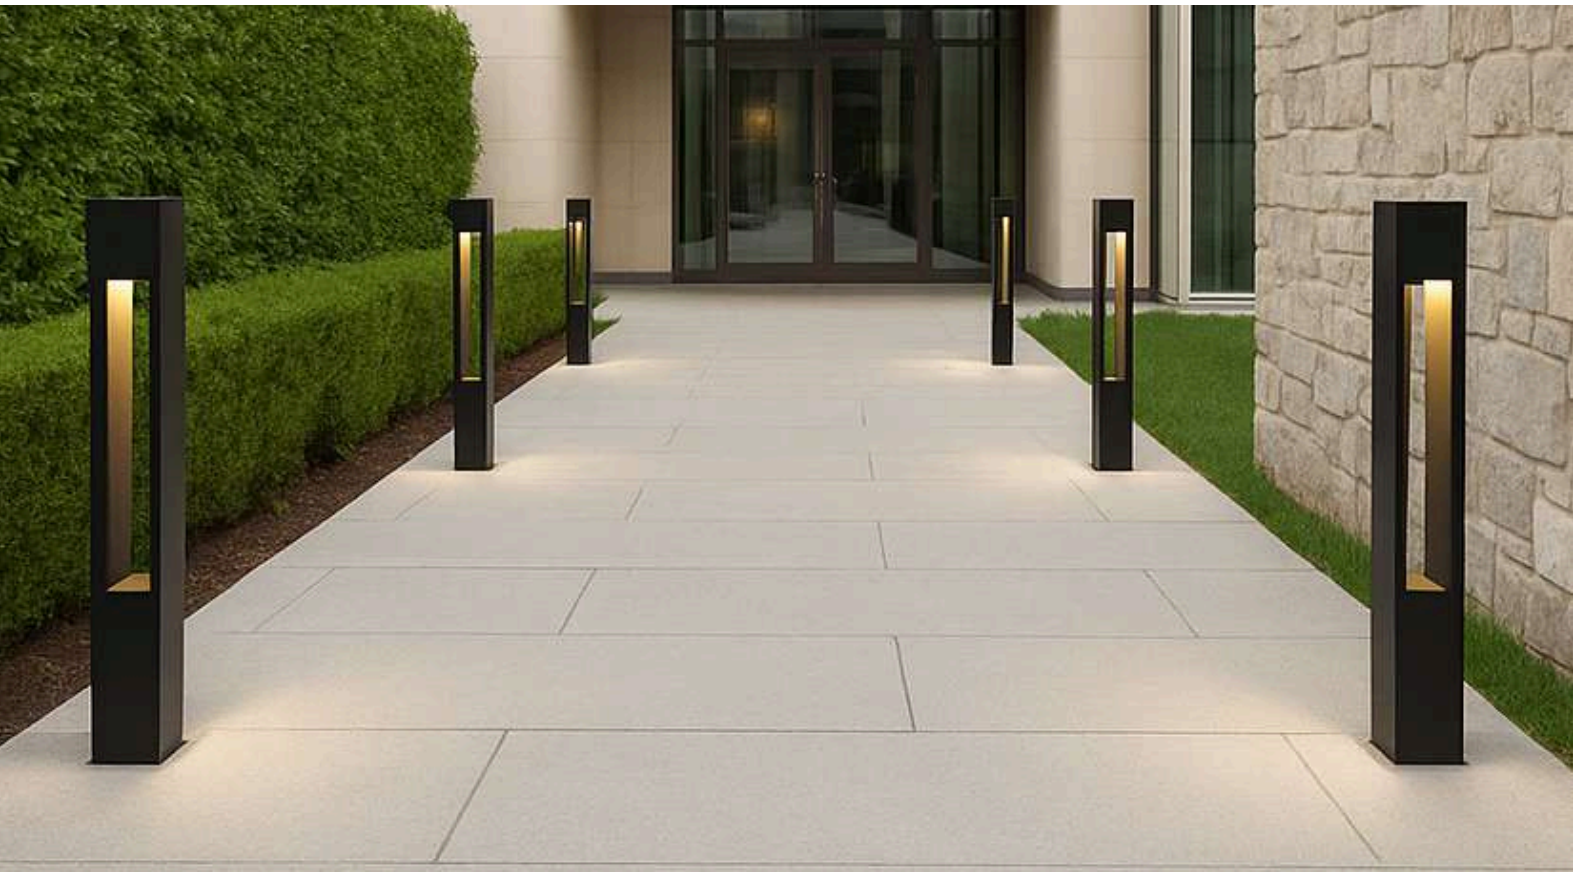

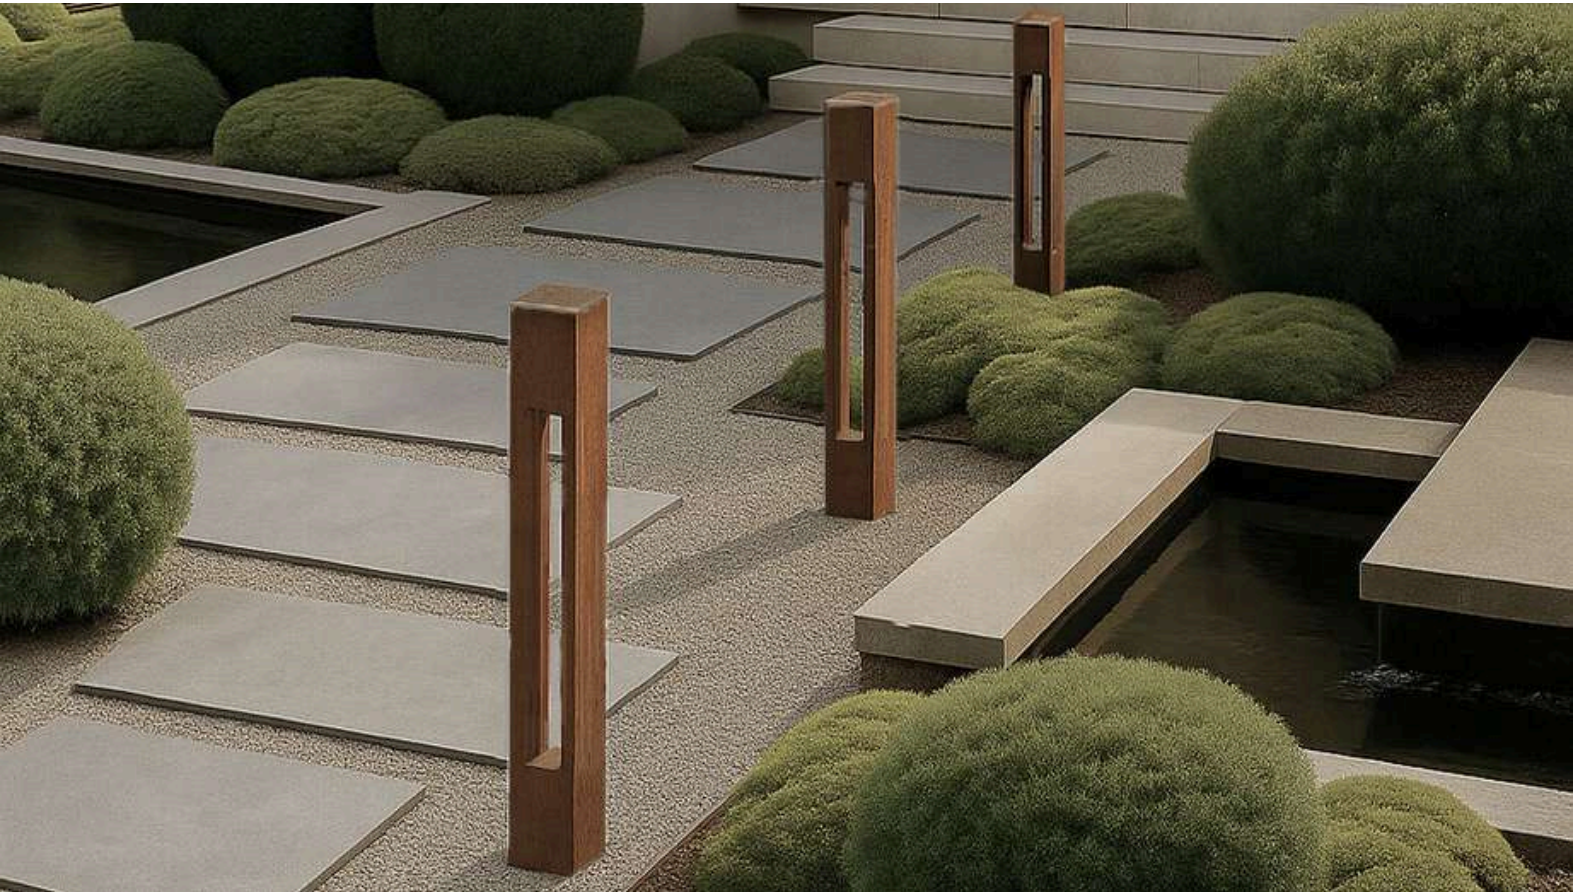

Refined bollard with inverted sculpted winglets that create depth and visual impact, even when unlit.

TETRA

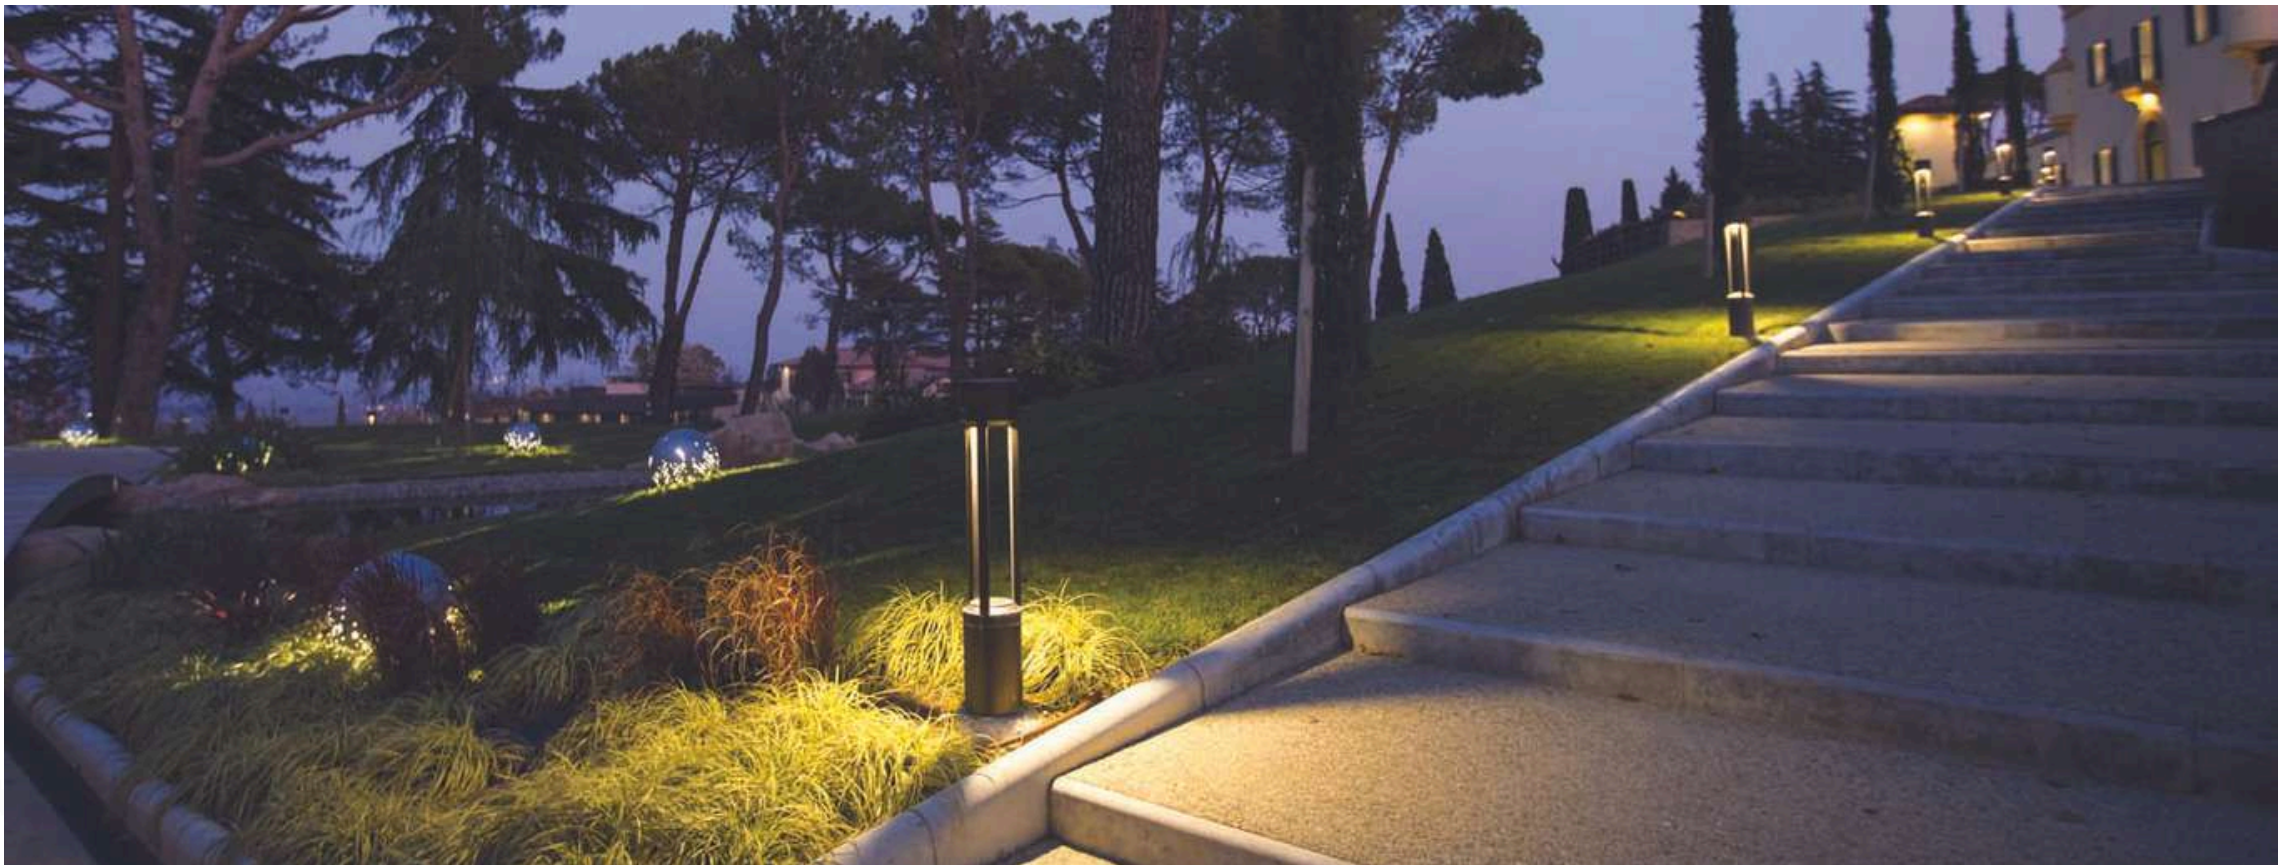

Slender square-base structure with dual vertical slats framing a beam of geometric light. The open form and refined proportions create a striking interplay of light and shadow. Corrosion-resistant extruded aluminum body with protective iridite, epoxy, and polyester coatings.

TRIS

Soft, rounded design with no sharp edges, blending naturally into outdoor settings. When lit, its structure recedes, leaving only a warm, ambient glow.

TUBE

Simple and functional bollard with clean geometry, adaptable to diverse outdoor settings. Die-cast aluminum body with corrosion-resistant anodizing, epoxy base, and polyester coating in various color options.

Pedestrian Posts

Pedestrian Posts

This selection features taller fixtures designed to enhance pedestrian environments such as parks, walkways, public buildings, and more. They offer numerous benefits, including improved safety, wayfinding, and visibility, while also elevating the overall quality and ambiance of the outdoor space. Each fixture brings its own unique features, benefits, or aesthetic appeal, yet they all offer the shared goals of functionality, safety, and design.

Font

Slim and timeless design with vintage-inspired elegance, providing a range of beam options including street and diffused distributions.

T4

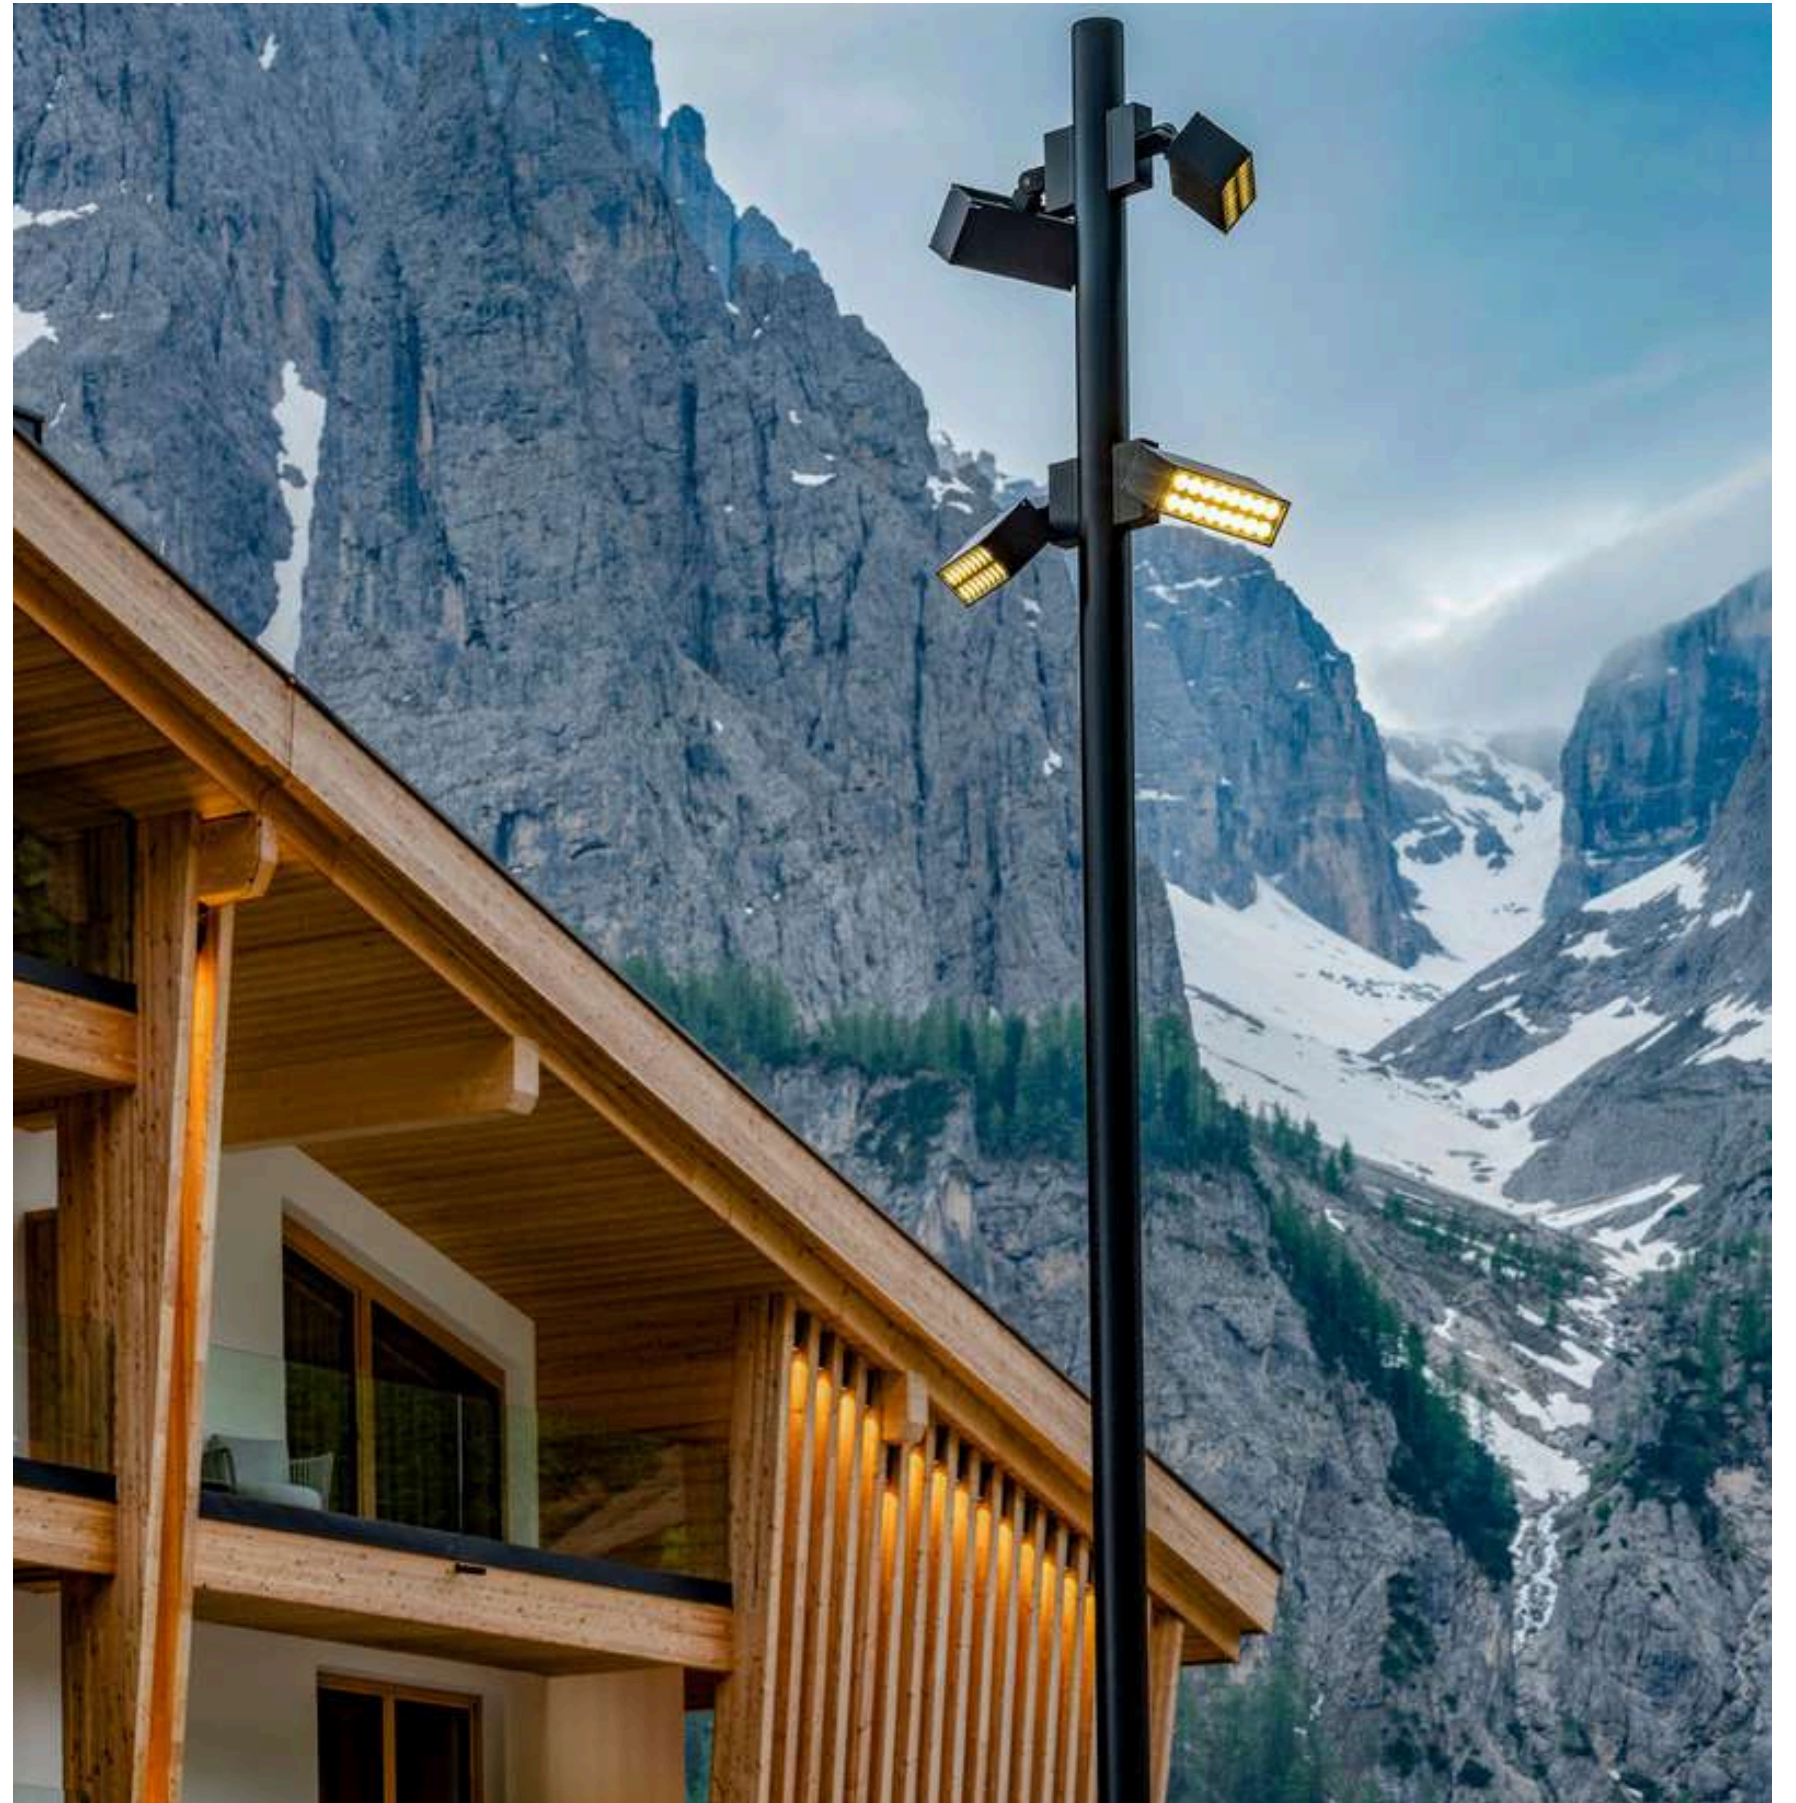

Minimal vertical structure that emits geometric beams, creating a dynamic play of light and shadow. A discreet yet powerful solution for open areas and circulation zones.

TARGET

Adjustable design with a three-axis central rotation joint for precise light placement. Target is protected with anodizing treatment, epoxy powder base coating and polyester painting in a variety of different color finish options. Available in different sizes with various optics.

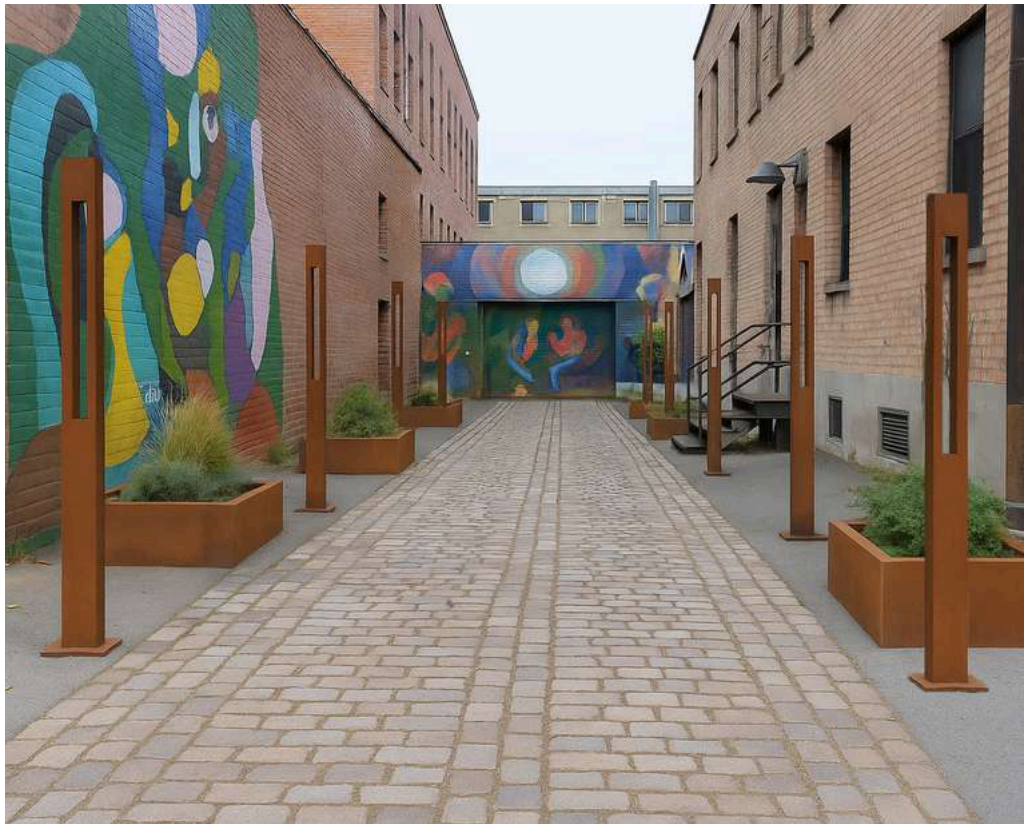

TARSIUS

Pole-mounted floodlight designed to effortlessly light large public areas, featuring a midnight function to reduce power during off-peak times.

TETRA

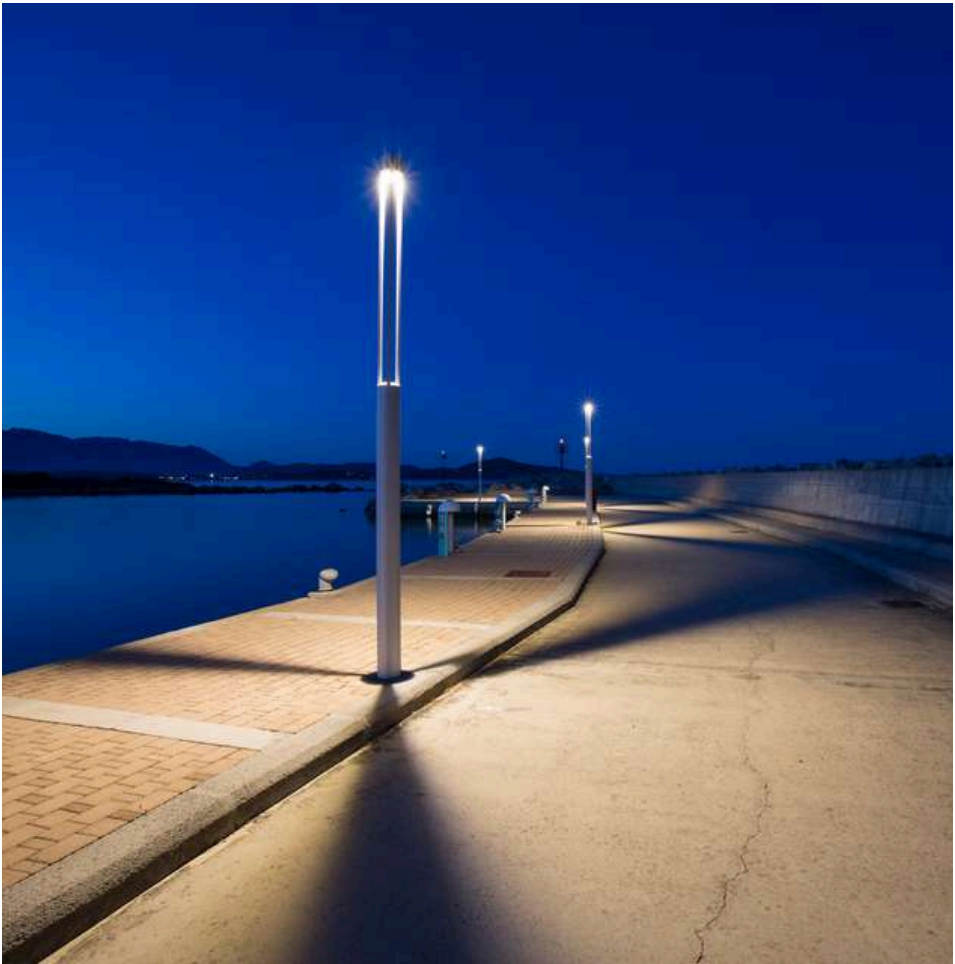

Slender, contemporary structure with dual vertical slats supporting the light source. Projects vertical light to enhance walkways with rhythm and clarity.

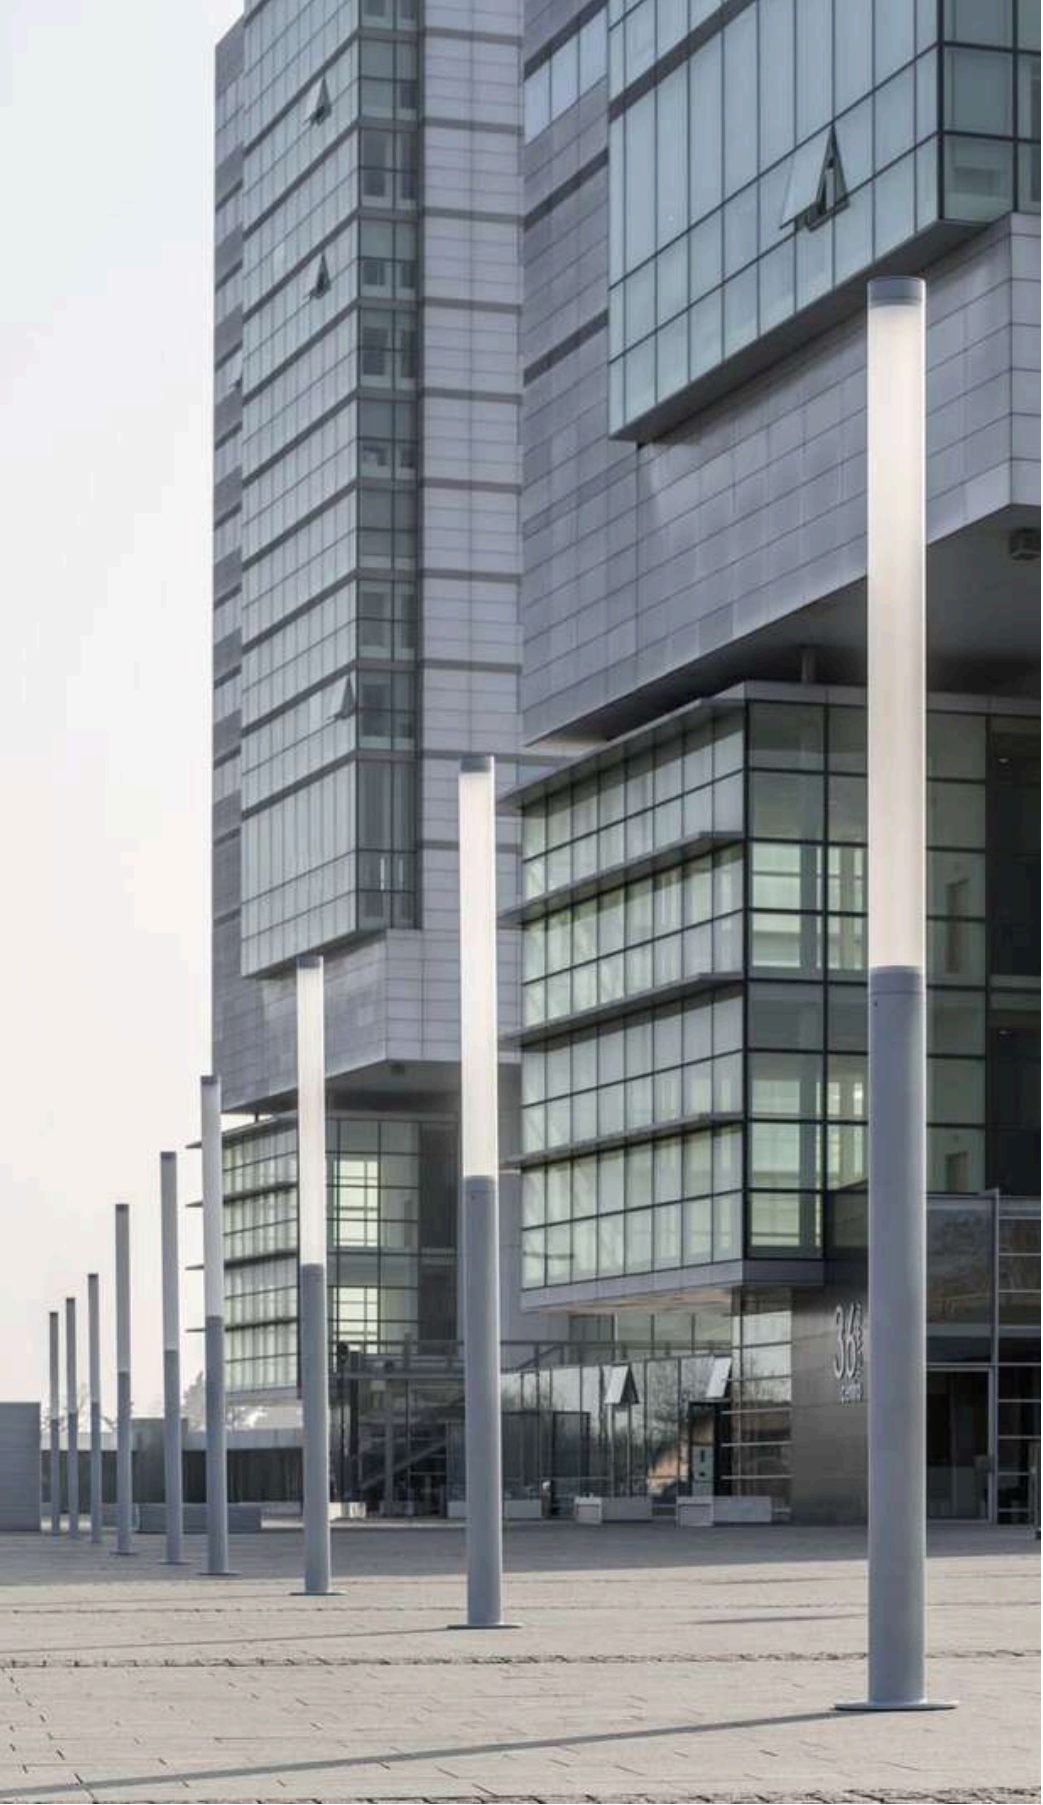

TRIS

Tripod-style pillar with soft edges and warm, inviting light. Its open design offers elegant visibility for public areas.

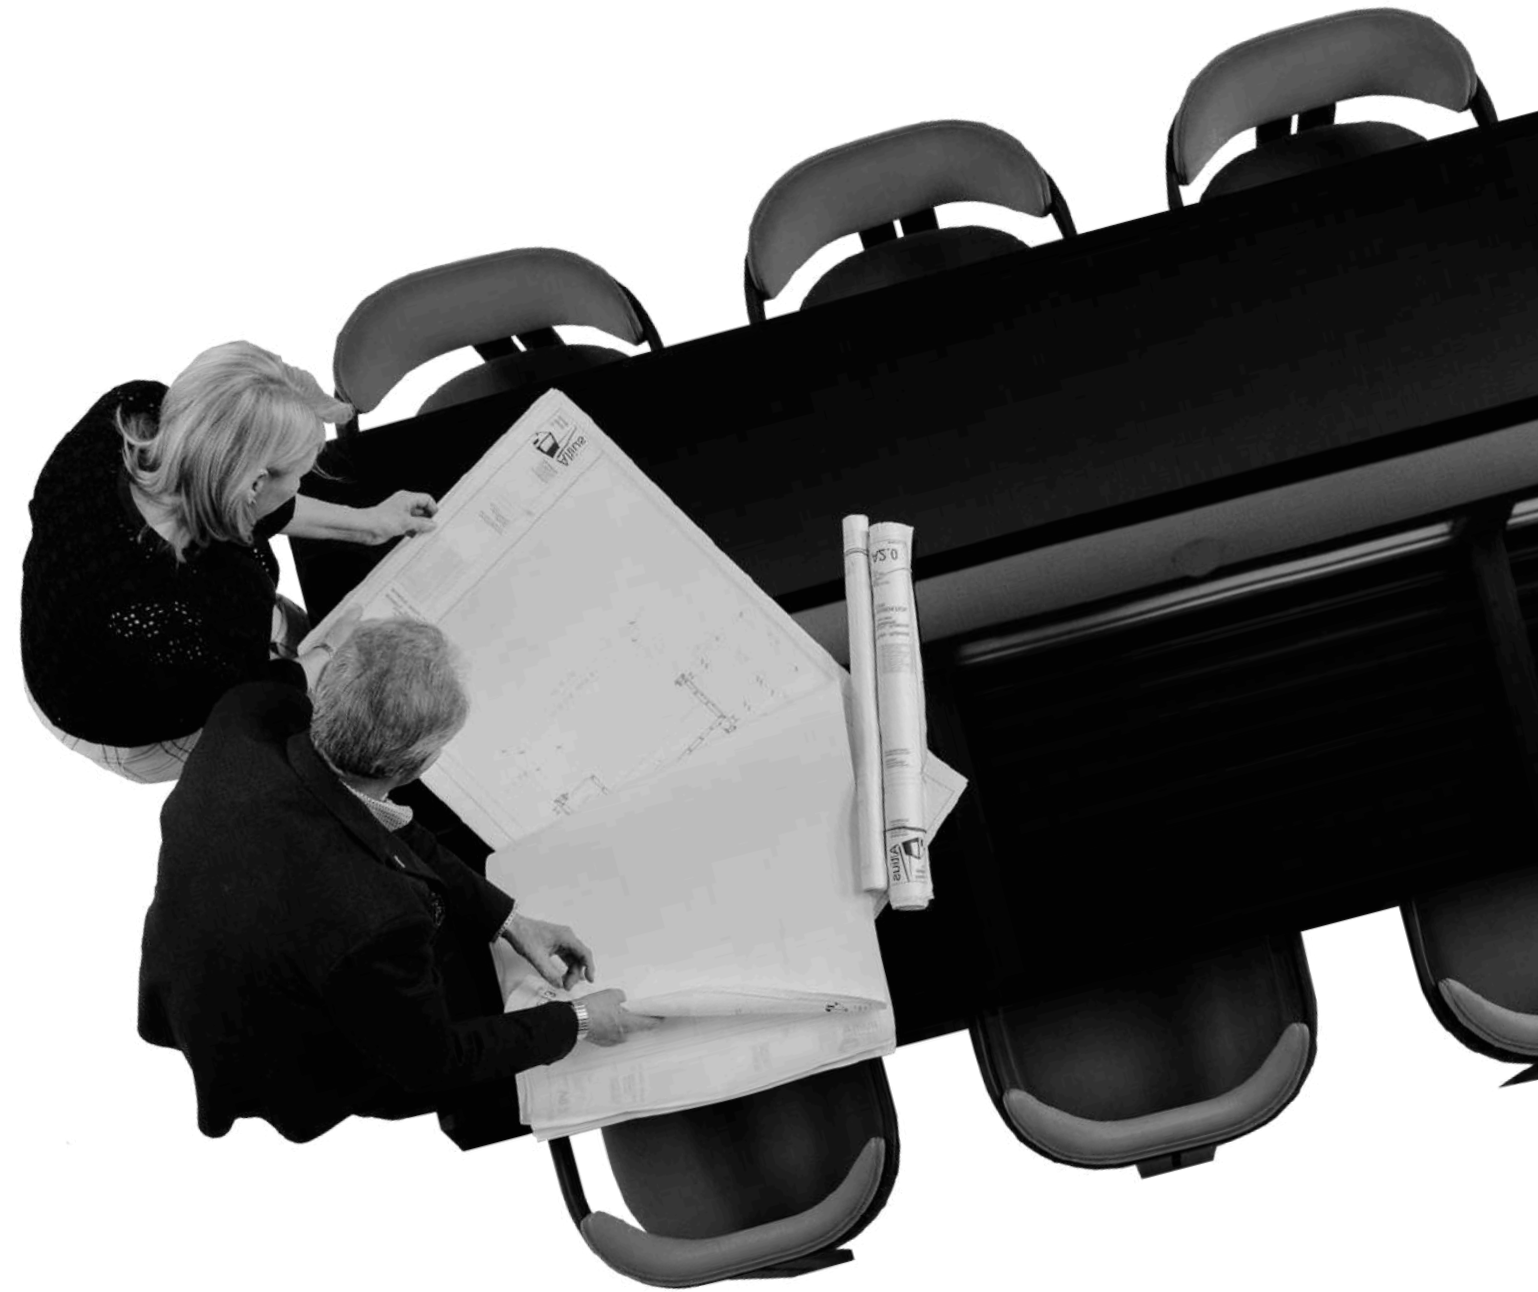

TUBE

Slim tubular post combining minimalist design with high performance and visual clarity, ideal for diverse outdoor environments.

Expert Collaboration

Zaneen's collection of exterior bollard fixtures delivers versatile lighting solutions that combine style and performance. Designed to enhance both safety and visual appeal, these fixtures are well-suited for a wide range of applications. From clean, minimalist forms to bold, architectural statements, this collection offers a balance of functionality and refined design.

Partnering with Zaneen means more than just choosing products—it's about collaborating with a dedicated team of experts committed to the success of your project. We work closely with you to ensure the perfect selection of products, light levels, and finishes tailored to your unique needs, ensuring that your project is executed with precision and excellence.

ZANEEN

Internationally recognized North American provider of premium European lighting, offering innovative solutions across four divisions.
