

Design that

reverberates

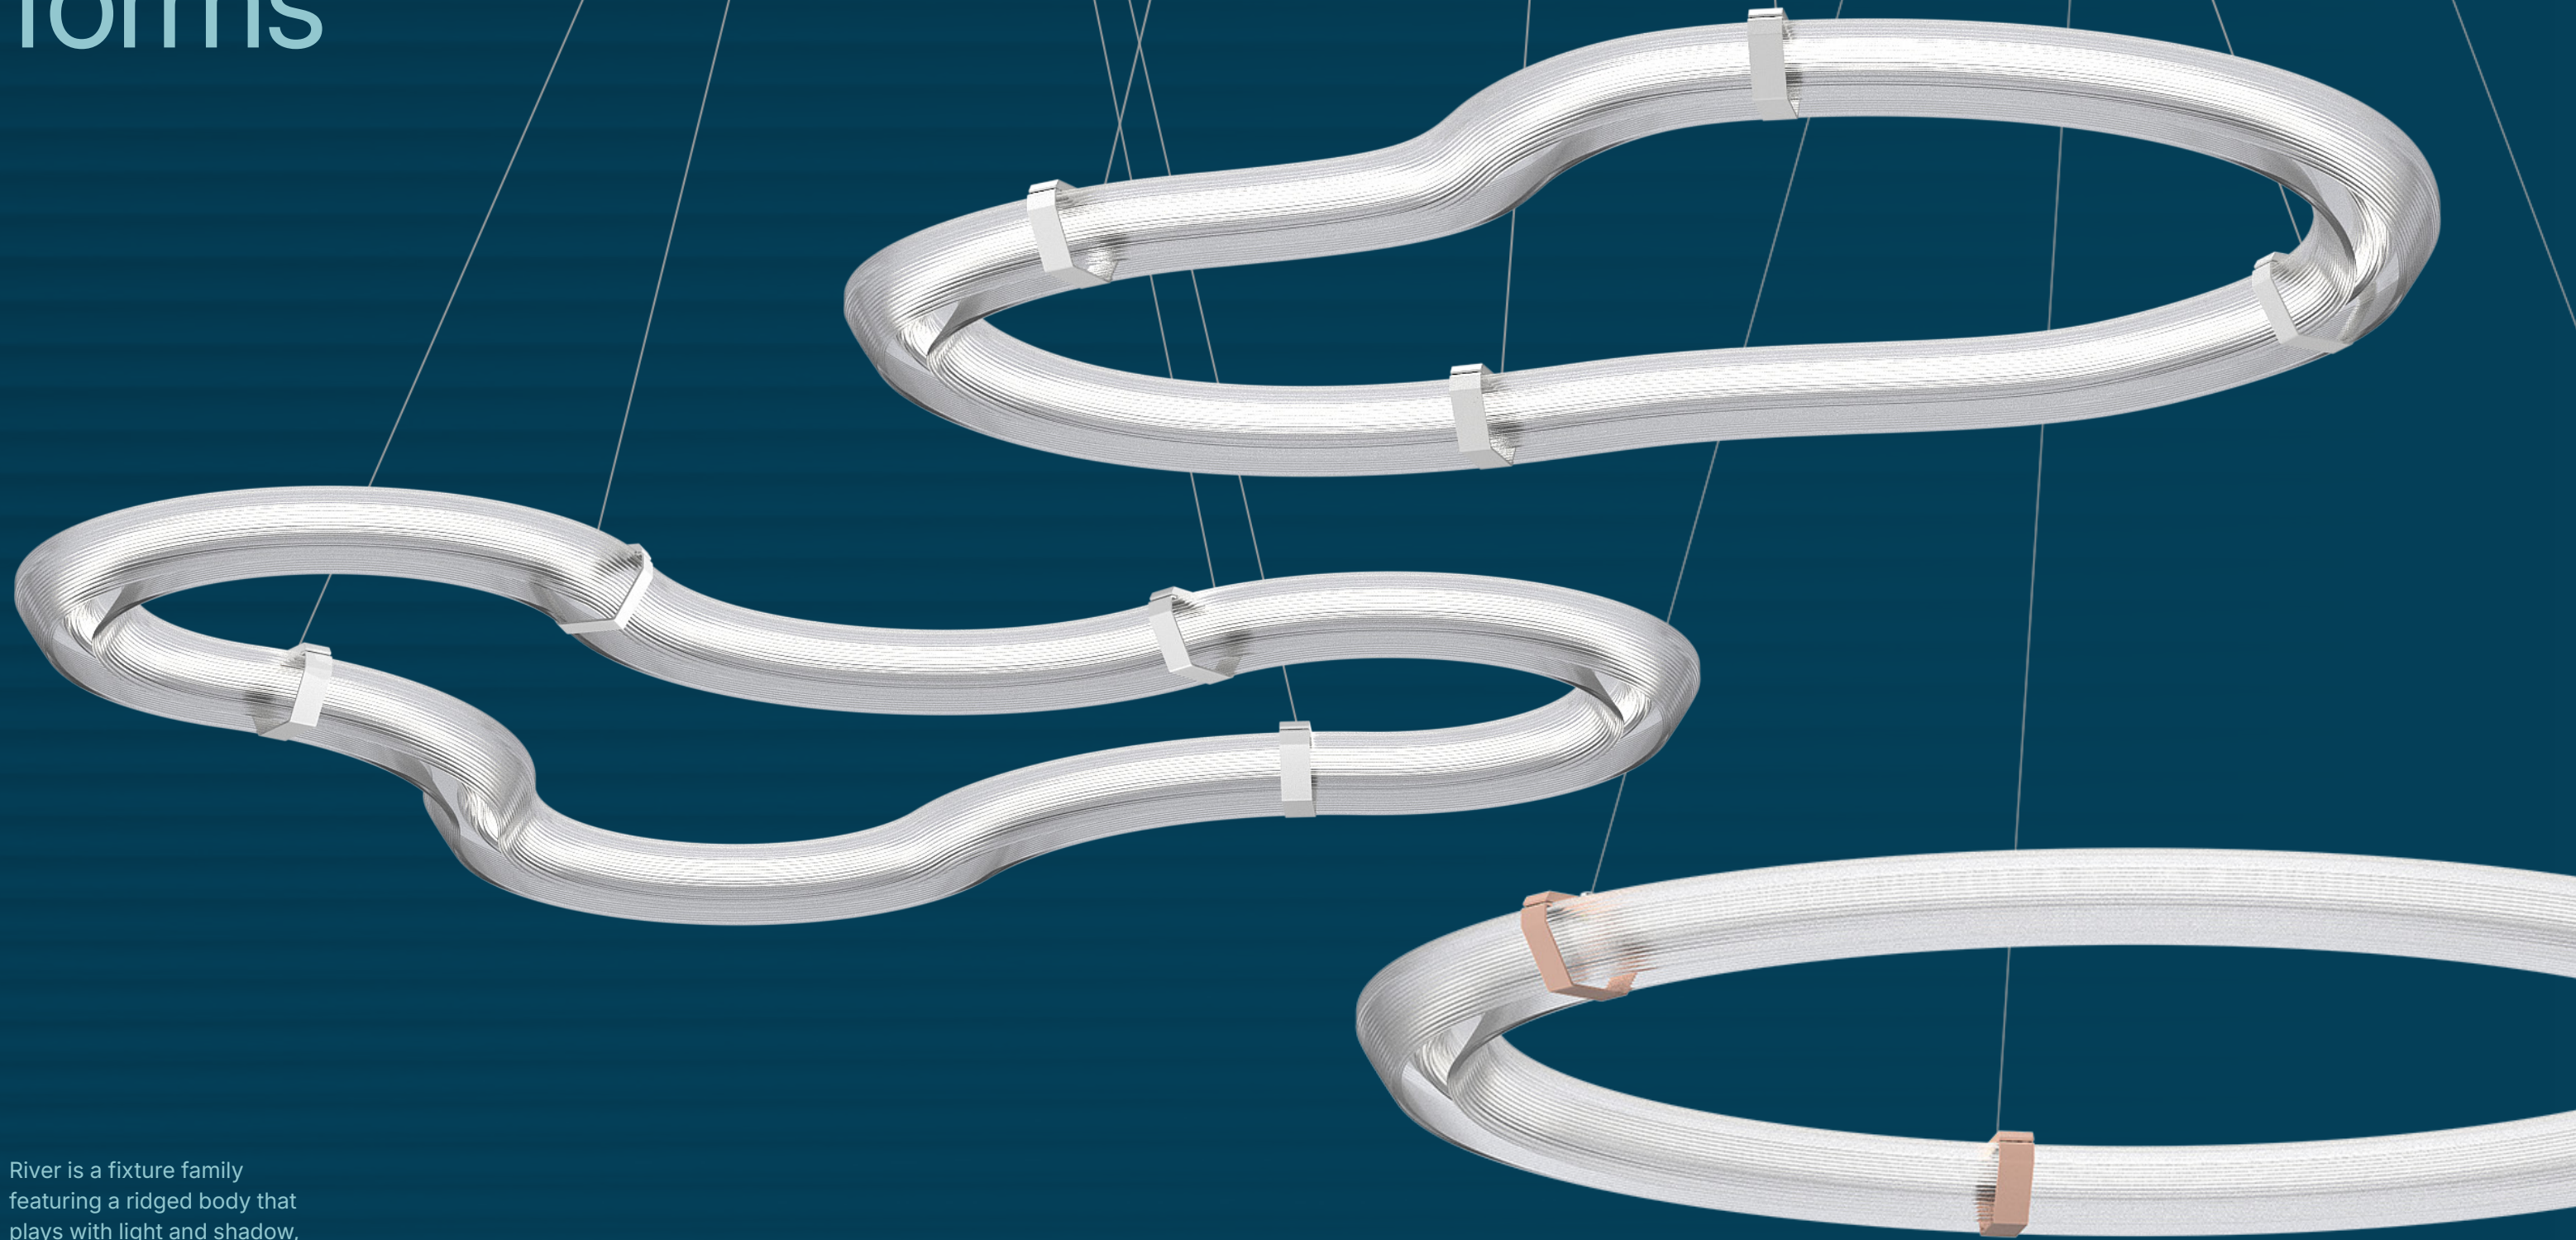

Inspired by the continuous movement of water, River translates the fluidity of a river into a sculptural lighting form. Its surface captures and diffuses light in subtle waves, evoking the rhythm and depth of flowing water. The result is a fixture that feels both dynamic and calm, where light and material echo one another in quiet motion.

Calmly captivating

Large-scale 3D printing
defines River's signature
cascading ridges.

Fluid forms

River is a fixture family featuring a ridged body that plays with light and shadow, introducing subtle depth and a mysterious presence.

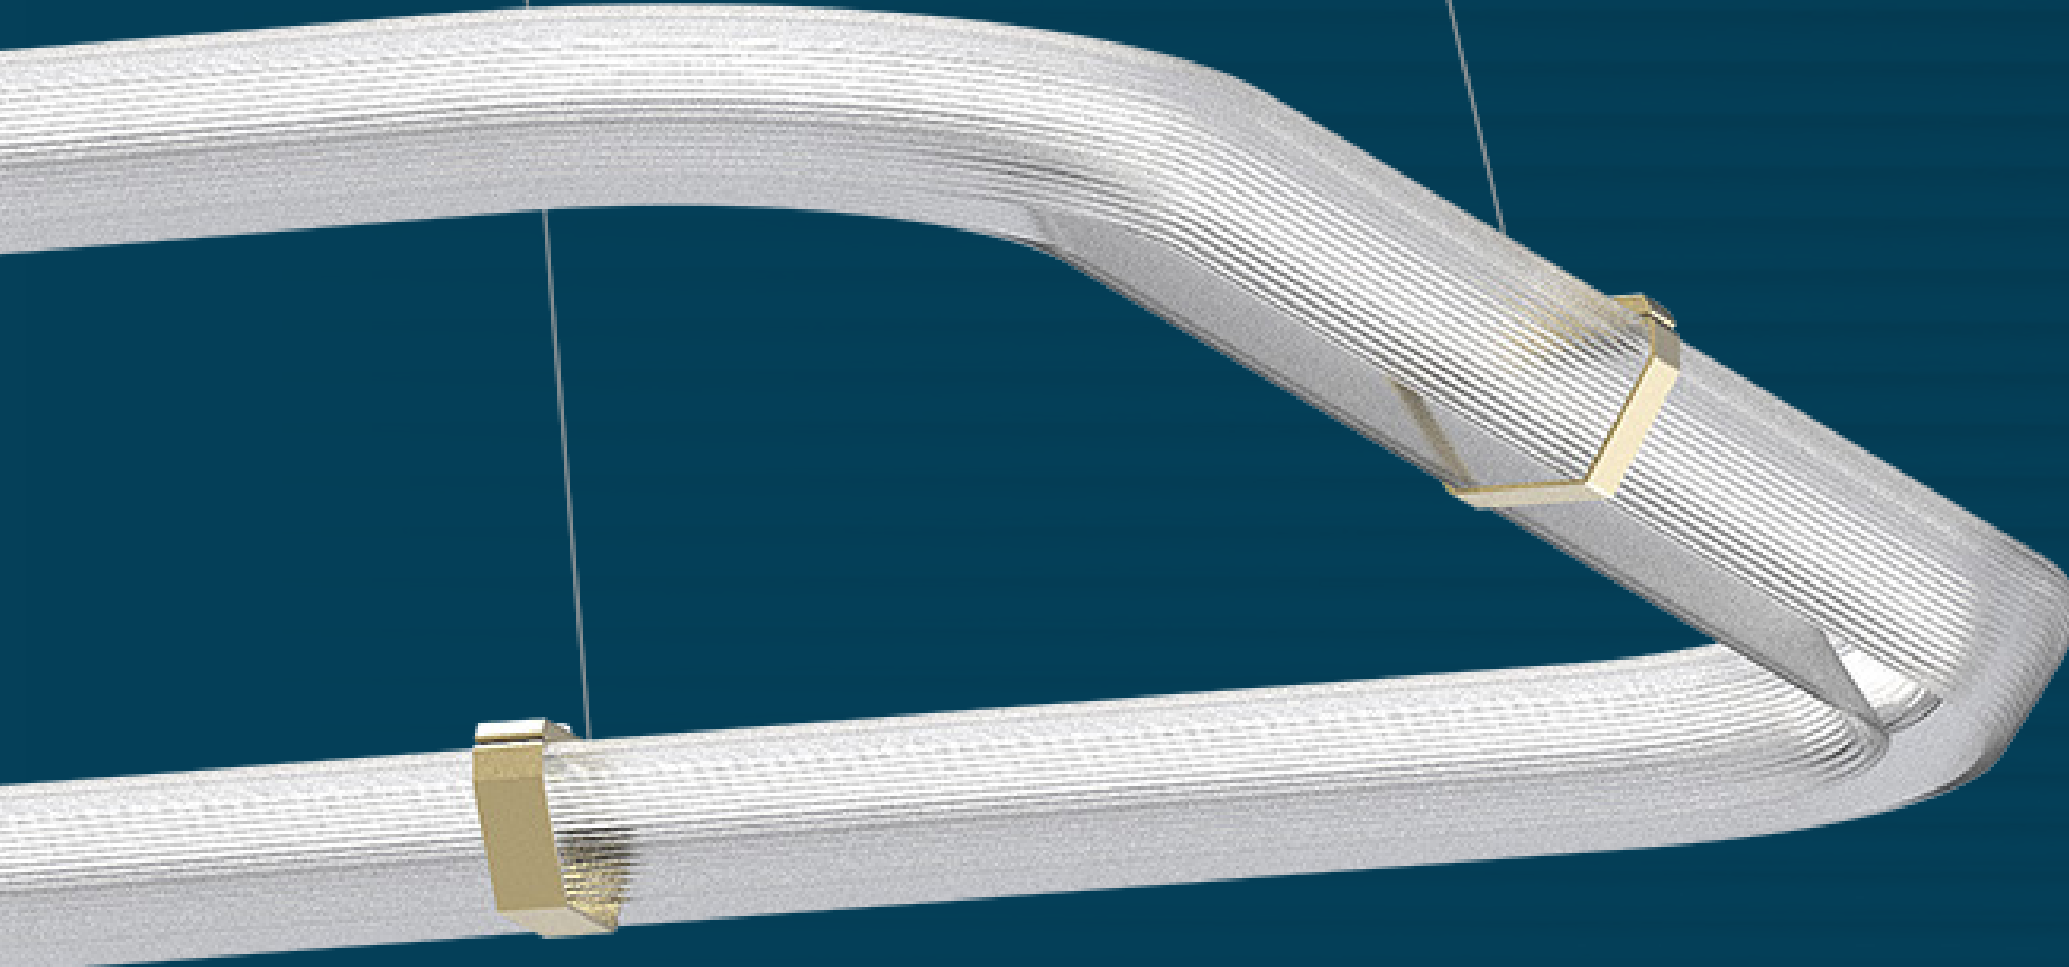

Flow state

River Freeform with SIM brackets

Whether in a hotel lounge or a rec room, River moves through the space in a way that gets noticed. Its playful shapes add intrigue and atmosphere.

A working welcome

River Oblong with NEE brackets

River elevates conference room lighting from an obligation to an element that delivers style and function. Make it a space people want to meet in—and one that's worth showing off to clients.

Into the clouds

No added wiring, no visual clutter. Aircraft cables carry both form and power, creating a floating effect with up to 400 lumens per foot.

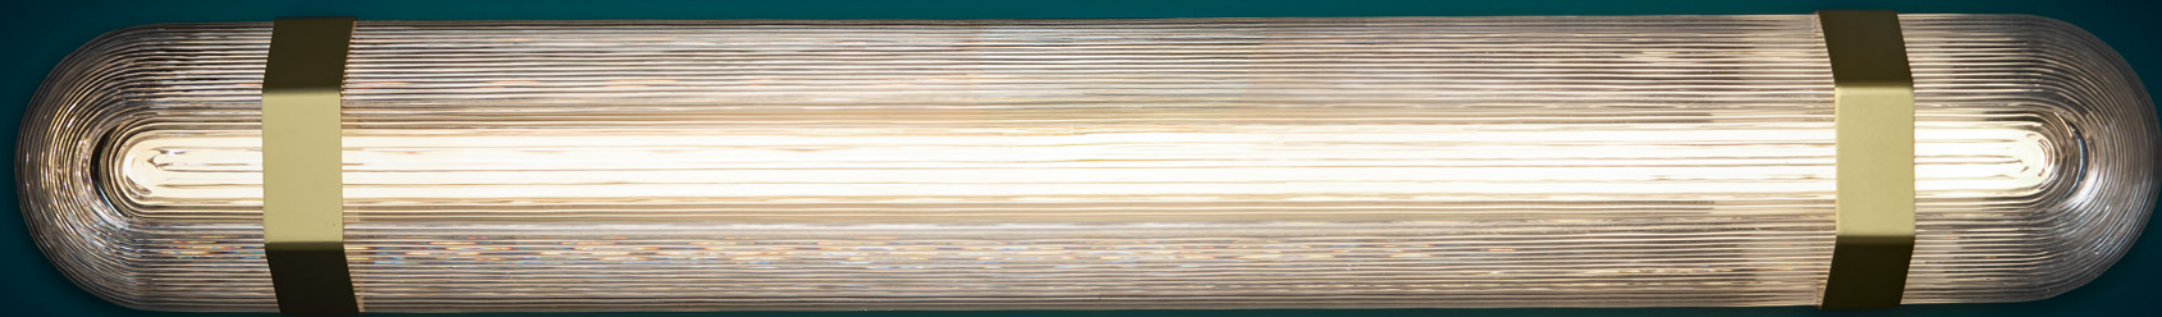

Hello, but better

River Straight with CPE brackets

Set the vibe early on. River brings an eye-catching mix of form and light, adding a playful edge to waiting zones.

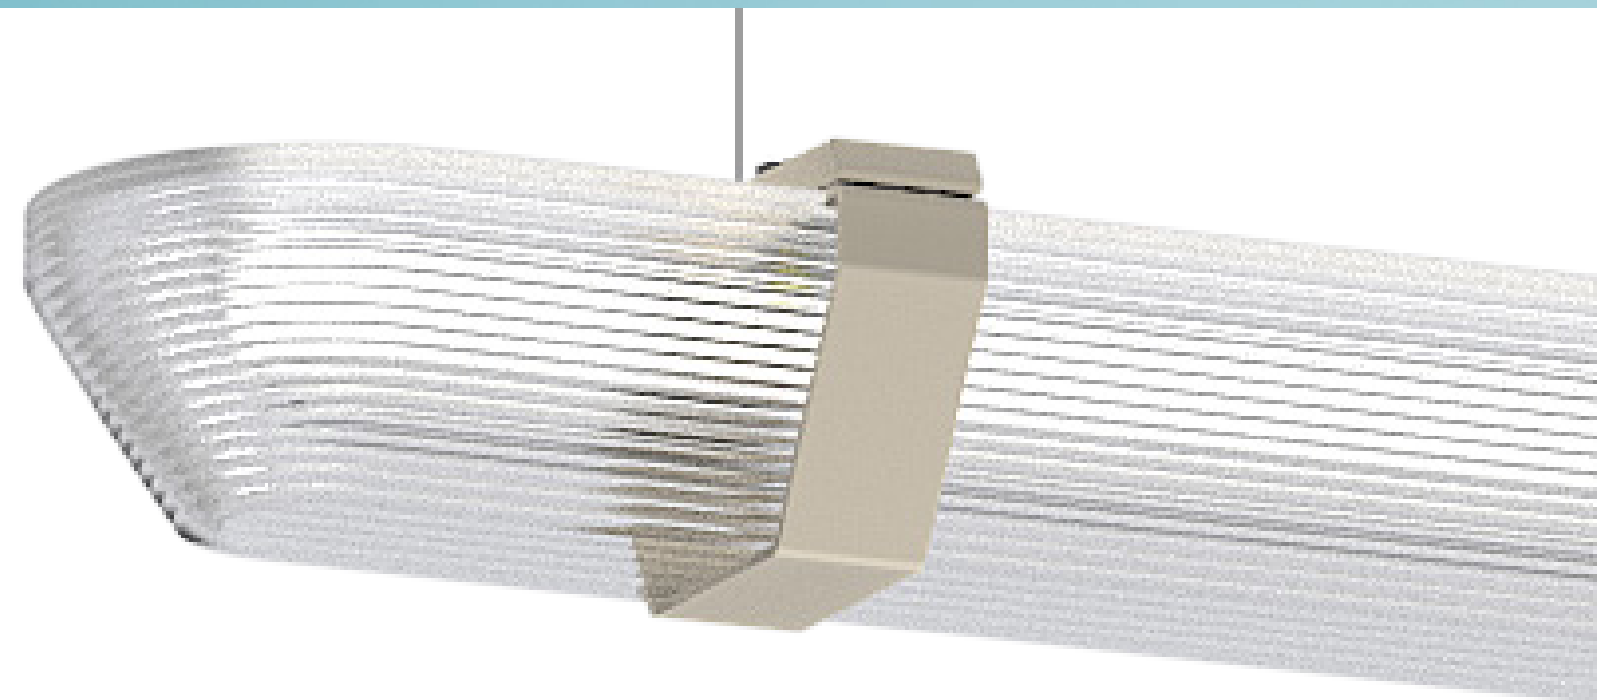

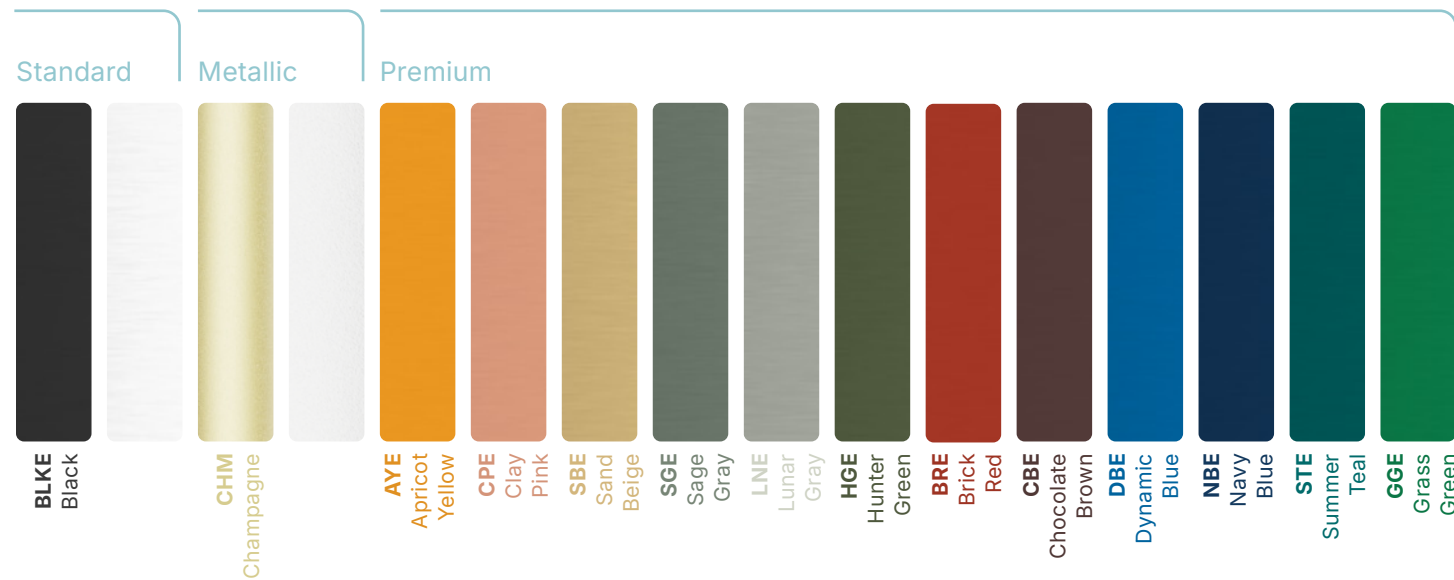

Beyond the surface

Surface-mounted,
River reveals another side.
Light moves through its
transparent body, casting an
ambient glow onto the wall.

Color in function

The luminaire's metal brackets bring a deliberate hit of color, with 16 possible hues to shape the mood and sharpen the look you're after.
